Proposition 20-1

A proposed constitutional amendment to allow money from oil and gas mining on state-owned lands to continue to be collected into state funds for land protection and creation of parks, recreation areas, and public recreation facilities; and to describe how money in those funds can be spent

- The purpose of the millage is to improve, operate, and maintain parks, open space and water areas, trails, and recreation facilities; to allow for the day-use park admission for seniors (60 and over), military, veterans, and residents with permanent disabilities; to expand trails; to enhance local recreation facilities, and recreation activities. Revenue from this millage will be distributed only to the County of Oakland to be used solely for the purpose of funding the Oakland County Parks and Recreation Commission with external audits and oversight by the Oakland County Board of Commissioners.

Proposal 20-2

A proposed constitutional amendment to allow a search warrant to order a person's electronic data or electronic communications. This proposed constitutional amendment would:

- Prohibit unreasonable searches or seizures of a person's electronic data or electronic communications.
- Require a search warrant to access a person's electronic data or electronic communications, under the same conditions currently required for the government to obtain a search warrant to house or seize a person's things.

Should this proposal be adopted?
