April 5, 2005

Dear Residents of Bloomfield Township:

I’m pleased to present the 2004 Bloomfield Township Planning Department Annual Report. This report has been prepared to give you insight into the accomplishments of the Department this year and also provide information about the Planning Department. The Department’s principal activities involve administering to the Design Review Board, Planning Commission and Zoning Board of Appeals. The processing of applications to each of these Township Boards is dependent on the enforcement of the Township’s Master Plan and Zoning Ordinances. The Planning Department also processes Lot Split Applications that are considered by the Township Board pursuant to General Ordinances 479 and 553, the Amended Lot Split Ordinance.

A major accomplishment for the Department is the final compilation of the Zoning Ordinance involving 30 years of amendments into a comprehensive user friendly document.

This report serves as the annual report of the Planning Commission pursuant to the Planning Commission Bylaws and Township Planning Act. In preparing the report, the Planning Commission has the chance to review their accomplishments over the course of the last 12 months. The Planning Commission approved the report at their meeting of April 4, 2005.

The report is separated into two distinct parts: Accomplishments and Goals. The Accomplishments section cites in narrative form the activities conducted by the Design Review Board, Planning Commission, and Township Board. This narrative includes a list of public hearings, studies and reviews. The Goals section lists the items from the Planning Commission’s Action List and identifies the action taken on each item. From this list, the Planning Commission has the opportunity to evaluate their goals and objectives, and make any needed revisions for the coming year. Charts at the end of this section compare the division of the workload of the Planning Department to that of previous years.

The success of the Planning Department is attributed to the professionalism and dedication of its employees and employees from other Township Departments who share in the common goal of ensuring the health, safety and welfare of our residents and their property. We look forward to the future to continue the high level of community service that Bloomfield Township residents have come to appreciate.

Respectfully Submitted,

Patricia McCullough
Planning & Building Director

Lot Splits

Lot Splits within the Charter Township of Bloomfield must meet the requirements of the Township Ordinance Nos. 479 and 553 Amended Lot Split Ordinance and the State Land Division Act. The review process typically takes between 60 – 90 days to complete. As applicable, this review process may be completed simultaneous with the site plan review process.

The Lot Split application and survey information is first reviewed by the Planning Department, and other Township Departments to confirm that it meets all Township Ordinance requirements. Once all information is reviewed, the application is forwarded to the Township Board when involving property zoned one-family residential to hold a public hearing, or to the Planning Commission when required, which holds a public hearing and provides recommendation to the Township Board.

In each case, before giving its approval, the Township Board shall consider the standards as stated in Sections 3.03 and 4.05 of Ordinance 479 – amended Lot split Ordinance. Upon approval of the proposed lot split by the Township Board, the applicant shall record the approved survey with the Oakland County Register of Deeds office and notify the Township Assessor’s office of the recording. New sidwell numbers cannot be processed until the Township Assessor receives the recorded survey documents.
