Dear Residents of Bloomfield Township:

I’m pleased to present the 2007 Bloomfield Township Planning Division Annual Report. This report has been prepared to give you insight into the accomplishments of the Division this year and also provide information about the Planning Division. The Division’s principal activities involve assisting the Design Review Board, Planning Commission and Zoning Board of Appeals. The processing of applications for each of these Township Boards is dependent on the enforcement of the Township’s Master Plan and Zoning Ordinances. The Planning Division also processes Lot Split Applications that are considered by the Township Board in accordance with Chapter 18, Article III, Division I, Section 18-232 of the Township Code of Ordinances.

The major accomplishment for 2007 was adoption of the Township’s new Master Plan. This update was based on numerous meetings to gather public input and involved outreach and review over 11 months. The Township’s new Master Plan redefines the current goals and provides a comprehensive strategy to help manage growth and redevelopment for a period of about 20 years. It considers population and economic trends, housing and infrastructure, and the protection of natural features. It offers goals for the physical arrangement of various land use activities.

This report serves as the annual report of the Planning Commission pursuant to the Planning Commission Bylaws and Township Planning Act. In preparing the report, the Planning Commission has the chance to review their accomplishments over the course of the last 12 months. The Planning Commission approved the report at their meeting on March 3, 2008.

The report is separated into two distinct parts: Accomplishments and Goals. The Accomplishments section cites in narrative form the activities conducted by the Design Review Board, Planning Commission, and Township Board. This narrative includes a list of public hearings, studies and reviews. The Goals section lists the items from the Planning Commission’s Action List and identifies the action taken on each item. From this list, the Planning Commission has the opportunity to evaluate their goals and objectives, and make any needed revisions for the coming year. Charts at the end of this section compare the division of the workload of the Planning Division to that of previous years.

The success of the Planning Division is attributed to the professionalism and dedication of its employees and employees from other Township Departments who share in the common goal of ensuring the health, safety and welfare of our residents and their property. We look forward to continuing the high level of community service that Bloomfield Township residents have come to appreciate.

Respectfully Submitted,

Patricia McCullough
Director of Planning, Building & Ordinance Department

Lot Splits must meet the requirements of The Charter Township of Bloomfield Code of Ordinances and the State Land Division Act. The review process typically takes between 60 and 90 days to complete. As applicable, this review process may be completed simultaneously with the site plan review process.

The Lot Split application and survey information is first reviewed by the Planning Division, and other Township Departments to confirm that it meets all Township Ordinance requirements. Once all information is reviewed, the application is forwarded to the Township Board when involving property zoned one-family residential to hold a public hearing, or to the Planning Commission when required, which holds a public hearing and provides recommendation to the Township Board.

In each case, before giving a lot split approval, the Township Board shall consider the standards as stated in Chapter 18, Article III, Division I, Section 18-232 of The Code of the Charter Township of Bloomfield. Upon approval of the proposed lot split by the Township Board, the applicant shall record the approved survey with the Oakland County Register of Deeds office and notify the Township Assessing office of the recording. New sidwell numbers cannot be processed until the Township Assessor receives the recorded survey documents.
